About CISHRP

The Cayman Islands Society for HR Professionals (CISHRP) is the largest body of professional HR individuals based in the Cayman Islands. A place small in size but big in ideas and great people.

CISHRP was formed in 2000 by a group of HR professionals in the Cayman Islands. The society currently has 350 members who work in all different levels of HR.

Our vision is to be recognised in the Cayman Islands as the authority on the most critical people management issues of today and tomorrow. Our objectives and goals are the reason we exist.

Each year we host an annual conference featuring guest speakers, seminars, social events and more.
